Volume 11951

Proceedings of SPIE, 1605-7422, V. 11951

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Design and Quality for Biomedical Technologies XV, edited by Jeeseong Hwang, Gracie Vargas
Proc. of SPIE Vol. 11951, 1195101 · © 2022 SPIE · 1605-7422 · doi: 10.1117/12.2635603

Proc. of SPIE Vol. 11951 1195101-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Design and Quality for Biomedical Technologies XV*, edited by Jeeseong Hwang, Gracie Vargas, T. Joshua Pfefer, Proc. of SPIE 11951, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

PHANTOMS AND STANDARDS

11951 02 **Towards pulsatile multilayer tissue phantoms [11951-5]**

COMPUTATIONAL METHODS

11951 03 **Monte Carlo based simulations of racial bias in pulse oximetry [11951-10]**

COVID-19 DETECTION AND DIAGNOSIS

11951 04 **Strategies for the development of photonic sensors for COVID-19 (Invited Paper) [11951-12]**

DEVICE PERFORMANCE ENHANCEMENT AND EVALUATION I: MICROSCOPY, OCT, MOBILE

- 11951 05 **Characterization of extended-wavelength diffuse reflectance spectroscopy for identification of neurovascular bundles using Monte Carlo models, optical phantoms, and ex vivo animal tissues [11951-23]**
- 11951 06 **Demonstration of 3-band spatial frequency domain imaging using an 8-tap CMOS image sensor resistant to subject motion and ambient light [11951-26]**
- 11951 07 **A 2x2-aperture 4-tap multi-modal tissue imager for multi-band SFDI and MELSCI [11951-27]**
- 11951 08 **Performance and reproducibility assessment across multiple time-domain near-infrared spectroscopy device replicas [11951-28]**

Conference Committee

Symposium Chairs

Jennifer K. Barton, The University of Arizona (United States)
Wolfgang Drexler, Medizinische Universität Wien (Austria)

Program Track Chairs

Tuan Vo-Dinh, Duke University (United States)
Anita Mahadevan-Jansen, Vanderbilt University (United States)

Conference Chairs

Jeeseong Hwang, National Institute of Standards and Technology (United States)
Gracie Vargas, The University of Texas Medical Branch (United States)

Conference Co-chair

T. Joshua Pfefer, U.S. Food and Drug Administration (United States)

Conference Program Committee

David W. Allen, National Institute of Standards and Technology (United States)
Anthony J. Durkin, Beckman Laser Institute and Medical Clinic (United States)
Sang-Won Lee, Korea Research Institute of Standards and Science (Korea, Republic of)
Rongguang Liang, Wyant College of Optical Sciences (United States)
Robert J. Nordstrom, National Institutes of Health (United States)
Ramesh Raghavachari, U.S. Food and Drug Administration (United States)
Eric J. Seibel, University of Washington (United States)
Behrouz Shabestari, National Institutes of Health (United States)
Rudolf M. Verdaasdonk, Vrije University Medical Center (Netherlands)
William C. Vogt, U.S. Food and Drug Administration (United States)
Heidrun Wabnitz, Physikalisch-Technische Bundesanstalt (Germany)
