

PROCEEDINGS OF SPIE

Ocean Sensing and Monitoring IV

Weilin Will Hou
Robert Arnone
Editors

24–26 April 2012
Baltimore, Maryland, United States

Sponsored and Published by
SPIE

Volume 8372

Proceedings of SPIE, 0277-786X, v. 8372

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Ocean Sensing and Monitoring IV, edited by Weilin Will Hou,
Robert Arnone, Proc. of SPIE Vol. 8372, 837201 © 2012 SPIE
CCC code: 0277-786X/12/\$18 · doi: 10.1117/12.981302

Proc. of SPIE Vol. 8372 837201-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Ocean Sensing and Monitoring IV*, edited by Weilin Will Hou, Robert Arnone, Proceedings of SPIE Vol. 8372 (SPIE, Bellingham, WA, 2012) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/12/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

The logo for SPIE Digital Library features the word "SPIE" in a bold, sans-serif font above the words "Digital Library" in a similar font. To the right of the text is a stylized graphic consisting of three vertical bars of varying heights, with a curved line arching over them.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

ix *Conference Committee*

SESSION 1 IMAGING THE OCEAN

- 8372 02 **Modular multi-channel imaging system for littoral observation and target detection (Invited Paper)** [8372-01]
Y. Podobna, J. Schoonmaker, C. Boucher, S. Saggese, D. Oakley, D. Medeiros, Advanced Coherent Technologies, LLC (United States)
- 8372 03 **Compact optical system for imaging underwater and through the air/sea interface** [8372-02]
D. Alley, L. Mullen, A. Laux, Naval Air Systems Command (United States)
- 8372 04 **Scattered photons as useable signal for underwater imaging** [8372-03]
W. McBride, A. Weidemann, U.S. Naval Research Lab. (United States); L. Mullen, A. Laux, D. Alley, Naval Air Systems Command (United States)
- 8372 05 **Application of in-situ digital holography in the study of particles, organisms and bubbles within their natural environment** [8372-04]
S. Talapatra, The Johns Hopkins Univ. (United States); J. Sullivan, WET Labs., Inc. (United States); J. Katz, The Johns Hopkins Univ. (United States); M. Twardowski, WET Labs., Inc. (United States); H. Czerski, Univ. of Southampton (United Kingdom); P. Donaghay, The Univ. of Rhode Island (United States); J. Hong, The Johns Hopkins Univ. (United States); J. Rines, M. McFarland, The Univ. of Rhode Island (United States); A. R. Nayak, C. Zhang, The Johns Hopkins Univ. (United States)
- 8372 06 **Bahamas Optical Turbulence Exercise (BOTEX): preliminary results** [8372-05]
W. Hou, E. Jorosz, U.S. Naval Research Lab. (United States); F. Dalgleish, G. Nootz, Florida Atlantic Univ. (United States); S. Woods, A. D. Weidemann, W. Goode, U.S. Naval Research Lab. (United States); A. Vuorenkoski, Florida Atlantic Univ. (United States); B. Metzger, B. Ramos, Florida Atlantic Univ. (United States)
- 8372 07 **Remote sensing of sound speed in the ocean via Brillouin scattering** [8372-25]
E. S. Fry, Texas A&M Univ. (United States)
- 8372 08 **The spatial and temporal structure of thermal fluctuations associated with a vertical turbulent jet impinging a water surface: laboratory experiments and field observations** [8372-07]
K. P. Judd, I. B. Savelyev, G. B. Smith, G. Marmorino, U.S. Naval Research Lab. (United States)
- 8372 09 **An optically remote powered subsea video monitoring system** [8372-08]
F. K. Lau, B. Stewart, Glasgow Caledonian Univ. (United Kingdom); D. McStay, FMC Technologies Ltd. (United Kingdom)

- 8372 0A **Integration of SAR and AIS for ship detection and identification** [8372-09]
C.-S. Yang, T.-H. Kim, Korea Ocean Research and Development Institute (Korea, Republic of) and Univ. of Science and Technology (Korea, Republic of)

SESSION 2 OIL SPILL DETECTION

- 8372 0B **Development of a fluorescence polarization submersible instrument for the detection of submerged heavy oil spill** [8372-10]
J. Bello, A. G. Smirnov, P. Toomey, EIC Labs., Inc. (United States)
- 8372 0C **Introduction of oil spill monitoring and response support system using satellite remote sensing** [8372-11]
T.-H. Kim, C.-S. Yang, Univ. of Science and Technology (Korea, Republic of) and Korea Ocean Research and Development Institute (Korea, Republic of)
- 8372 0D **Fingerprinting of crude oil using fluorescence spectroscopy** [8372-12]
A. S. Holmes-Smith, M. Uttamlal, C. McCormick, D. M. Hepburn, Glasgow Caledonian Univ. (United Kingdom); A. Graham, D. Faichnie, FMC Technologies Ltd. (United Kingdom)

SESSION 3 REMOTE SENSING OF THE OCEANS: NPP VIIRS I

- 8372 0E **Application of laser-source-based calibration for VIIRS for ultra-high-accuracy spectroradiometric calibration (Invited Paper)** [8372-13]
B. Guenther, Stellar Solutions, Inc. (United States)
- 8372 0G **Validation of the VIIRS ocean color (Invited Paper)** [8372-15]
R. Arnone, U.S. Naval Research Lab. (United States) and Stennis Space Ctr. (United States); G. Fargion, San Diego State Univ. (United States); P. Martinolich, QinetiQ Corp. (United States) and Stennis Space Ctr. (United States); S. Ladner, A. Lawson, U.S. Naval Research Lab. (United States) and Stennis Space Ctr. (United States); J. Bowers, QinetiQ Corp. (United States) and Stennis Space Ctr. (United States); M. Ondrusek, National Environmental Satellite, Data, and Information Service (United States); G. Zibordi, Institute for Environment and Sustainability (Italy); Z. Lee, Univ. of Massachusetts (United States); C. Trees, NATO Undersea Research Ctr. (Italy); C. Davis, Oregon State Univ. (United States); S. Ahmed, The City College of New York (United States)
- 8372 0H **Initial results of NPP VIIRS SST processing at NAVOCEANO** [8372-16]
B. McKenzie, D. May, U.S. Naval Oceanographic Office (United States); J.-F. Cayula, QinetiQ North America (United States) and Stennis Space Ctr. (United States); K. Willis, U.S. Naval Oceanographic Office (United States)
- 8372 0J **Automated ocean color product validation for the Southern California Bight (Invited Paper)** [8372-18]
C. O. Davis, N. Tuffillaro, Oregon State Univ. (United States); B. Jones, The Univ. of Southern California, Los Angeles (United States); R. Arnone, U.S. Naval Research Lab. (United States) and Stennis Space Ctr. (United States)

- 8372 OK **A methodology for calibration of hyperspectral and multispectral satellite data in coastal areas** [8372-19]
G. Pennucci, NATO Undersea Research Ctr. (Italy); G. Fargion, San Diego State Univ. (United States); A. Alvarez, C. Trees, NATO Undersea Research Ctr. (Italy); R. Arnone, U.S. Naval Research Lab. (United States)

SESSION 4 REMOTE SENSING OF THE OCEANS: NPP VIIRS II

- 8372 OL **Selecting a first-guess SST as input to ACSPO** [8372-20]
K. Saha, National Oceanic and Atmospheric Administration (United States) and Cooperative Institute for Research in the Atmospheres (United States); A. Ignatov, National Oceanic and Atmospheric Administration (United States); X. Liang, P. Dash, National Oceanic and Atmospheric Administration (United States) and Cooperative Institute for Research in the Atmospheres (United States)
- 8372 OM **Evaluation of atmospheric correction procedures for ocean color data processing using hyper- and multi-spectral radiometric measurements from the Long Island Sound Coastal Observatory** [8372-21]
S. Ahmed, A. Gilerson, The City College of New York (United States); T. Harmel, Observatoire Océanologique de Villefranche sur Mer (France); S. Hlaing, A. Tonizzo, The City College of New York (United States); A. Weidemann, R. Arnone, U.S. Naval Research Lab. (United States) and Stennis Space Ctr. (United States)

SESSION 5 LIDAR ON OCEAN PROCESSES

- 8372 ON **Airborne LIDAR as a tool for estimating inherent optical properties (Invited Paper)** [8372-22]
C. Trees, NATO Undersea Research Ctr. (Italy); R. Arnone, U.S. Naval Research Lab. (United States) and Stennis Space Ctr. (United States)
- 8372 OO **Probing the subsurface ocean processes using ocean LIDARS** [8372-23]
R. Arnone, S. Derada, S. Ladner, U.S. Naval Research Lab. (United States) and Stennis Space Ctr. (United States); C. Trees, NATO Undersea Research Ctr. (Italy)
- 8372 OP **Airborne lidar sensing of internal waves in a shallow fjord (Invited Paper)** [8372-24]
J. H. Churnside, NOAA Earth System Research Lab. (United States); R. Marchbanks, Univ. of Colorado (United States) and NOAA Earth System Research Lab. (United States); J. H. Lee, NOAA Earth System Research Lab. (United States); J. A. Shaw, Montana State Univ. (United States); A. Weidemann, U.S. Naval Research Lab. (United States) and Stennis Space Ctr. (United States); P. Donaghay, The Univ. of Rhode Island (United States)
- 8372 OR **Image enhancement for underwater pulsed laser line scan imaging system** [8372-26]
B. Ouyang, F. R. Dalglish, F. M. Caimi, A. K. Vuorenkoski, Florida Atlantic Univ. (United States); T. E. Giddings, J. J. Shirron, Metron, Inc. (United States)
- 8372 OS **A modulated pulse laser for underwater detection, ranging, imaging, and communications** [8372-27]
B. Cochenour, Naval Air Systems Command (United States) and North Carolina State Univ. (United States); L. Mullen, Naval Air Systems Command (United States); J. Muth, North Carolina State Univ. (United States)

- 8372 OT **Polarization techniques for the retrieval of water parameters from above and below water polarimetric observations** [8372-28]
A. Gilerson, A. Ibrahim, The City College of New York (United States); T. Harmel, Lab. d'Océanographie de Villefranche (France); A. Tonizzo, S. Ahmed, The City College of New York (United States)

SESSION 6 REMOTE AND IN SITU SENSING OF THE OCEANS I

- 8372 OU **Biological thin layers: history, ecological significance and consequences to oceanographic sensing systems (Invited Paper)** [8372-29]
J. Sullivan, WET Labs, Inc. (United States) and The Univ. of Rhode Island (United States); M. Twardowski, WET Labs., Inc. (United States); P. Donaghay, J. Rines, M. McFarland, The Univ. of Rhode Island (United States); S. Talapatra, J. Katz, The Johns Hopkins Univ. (United States); J. Churnside, NOAA Earth System Research Lab. (United States); A. Weidemann, U.S. Naval Research Lab. (United States) and Stennis Space Ctr. (United States)
- 8372 OZ **Forecasting the ocean optical environment in support of Navy mine warfare operations** [8372-34]
S. D. Ladner, R. Arnone, J. Jolliff, U.S. Naval Research Lab. (United States); B. Casey, QinetiQ North America (United States) and Stennis Space Ctr. (United States); K. Matulewski, Naval Oceanographic Office (United States) and Stennis Space Ctr. (United States)

SESSION 7 REMOTE AND IN SITU SENSING OF THE OCEANS II

- 8372 10 **Cross-calibration of Landsat-7's visible-near-infrared bands with Terra-MODIS over dark waters** [8372-35]
N. Pahlevan, Univ. of Massachusetts Boston (United States); N. G. Raqueno, J. R. Schott, Rochester Institute of Technology (United States)
- 8372 11 **Over-water atmospheric correction for Landsat's new OLI sensor** [8372-36]
A. D. Gerace, J. R. Schott, Rochester Institute of Technology (United States)

SESSION 8 REMOTE AND IN SITU SENSING OF THE OCEANS III

- 8372 14 **Stability augmentation and mosaic method of forward-scan sonar images** [8372-39]
S. Xie, J. Luo, J. Chen, Y. Xu, Shanghai Univ. (China)
- 8372 15 **Sonar watermark embedding and detection: a sea trial report** [8372-40]
B. G. Mobasser, Villanova Univ. (United States); N. Chakilam, The MathWorks, Inc. (United States); R. S. Lynch, Naval Undersea Warfare Ctr. (United States)
- 8372 16 **Comparison of sea-level measurements using microwave radar and subsurface pressure gauge deployed in Mandovi estuary in Goa, central west coast of India** [8372-42]
P. Mehra, Y. Agarvadekar, R. Luis, L. Nadaf, National Institute of Oceanography (India)
- 8372 17 **Study of wind speed attenuation at Kavaratti Island using land-based, offshore, and satellite measurements** [8372-43]
A. Joseph, National Institute of Oceanography (India); P. Rivonkar, Systems Electronics (India); T. M. Balakrishnan Nair, Indian National Ctr. for Ocean Information Services (India)

- 8372 18 **Statistical modeling of tropical cyclones' longevity after landfall in Australia** [8372-44]
K. K. Saha, S. A. Wasimi, Central Queensland Univ., Rockhampton (Australia)
- 8372 19 **iDiver: underwater text messaging and locating system for divers** [8372-45]
R. Narayanaswami, C. Gutiérrez, Scientific Systems Co., Inc. (United States); R. Rameez,
M. Stojanovic, Northeastern Univ. (United States); R. K. Mehra, Scientific Systems Co., Inc.
(United States)
- 8372 1A **Light field and water clarity simulation of natural environments in laboratory conditions**
[8372-41]
S. Pe'eri, G. Shwaery, The Univ. of New Hampshire (United States)

POSTER SESSION

- 8372 1B **Underwater laser range finder** [8372-46]
A. Laux, L. Mullen, U.S. Naval Air Systems Command (United States); P. Perez, Clarkson Univ.
(United States); E. Zege, B.I. Stepanov Institute of Physics (Belarus)
- 8372 1D **Development of a low-cost, unmanned surface vehicle for military applications** [8372-48]
A. Cadena, Ecuadorian Navy (Ecuador)

Author Index

Conference Committee

Symposium Chair

Kevin P. Meiners, Office of the Secretary of Defense (United States)

Symposium Cochair

Kenneth R. Israel, Lockheed Martin Corporation (United States)

Conference Chairs

Weilin Will Hou, U.S. Naval Research Laboratory (United States)

Robert Arnone, U.S. Naval Research Laboratory (United States)

Program Committee

Todd E. Bowers, Naval Oceanographic Office (United States)

Kendall L. Carder, SRI International (United States)

James H. Churnside, National Oceanic and Atmospheric
Administration (United States)

Percy L. Donaghay, The University of Rhode Island (United States)

Linda J. Mullen, Naval Air Systems Command (United States)

Mitchell A. Roffer, Roffer's Ocean Fishing Forecasting Service, Inc.
(United States)

Jon Schoonmaker, Advanced Coherent Technologies LLC
(United States)

Charles Trees, NATO Undersea Research Center (Italy)

Michael S. Twardowski, WET Laboratories, Inc. (United States)

Alan Weidemann, U.S. Naval Research Laboratory (United States)

Sarah Woods, U.S. Naval Research Laboratory (United States)

Session Chairs

- 1 Imaging the Ocean
Linda J. Mullen, Naval Air Systems Command (United States)
Jon Schoonmaker, Advanced Coherent Technologies LLC
(United States)

- 2 Oil Spill Detection
Mitchell A. Roffer, Roffer's Ocean Fishing Forecasting Service, Inc.
(United States)

- 3 Remote Sensing of the Oceans: NPP VIIRS I
Changyong Cao, National Oceanic and Atmospheric Administration (United States)
Robert Arnone, U.S. Naval Research Laboratory (United States)
- 4 Remote Sensing of the Oceans: NPP VIIRS II
Giulietta S. Fargion, San Diego State University (United States)
Robert Arnone, U.S. Naval Research Laboratory (United States)
- 5 Lidar on Ocean Processes
Charles Treese, NATO Undersea Research Center (Italy)
James H. Churnside, National Oceanic and Atmospheric Administration (United States)
- 6 Remote and In Situ Sensing of the Oceans I
Michael Twardowski, WET Laboratories, Inc. (United States)
Todd E. Bowers, Naval Oceanographic Office (United States)
- 7 Remote and In Situ Sensing of the Oceans II
Percy L. Donaghay, The University of Rhode Island (United States)
Michael Twardowski, WET Laboratories, Inc. (United States)
- 8 Remote and In Situ Sensing of the Oceans III
Weilin Will Hou, U.S. Naval Research Laboratory (United States)
Alan Weidemann, U.S. Naval Research Laboratory (United States)
