**Volume 8740**

Proceedings of SPIE 0277-786X, V. 8740

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Motion Imagery Technologies, Best Practices, and Workflows for Intelligence, Surveillance, and Reconnaissance (ISR), and Situational Awareness, edited by Donnie Self, Proc. of SPIE Vol. 8740, 874001 · © 2013 SPIE · CCC code: 0277-786X/13/$18 · doi: 10.1117/12.2030354

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:
Author(s), "Title of Paper," in *Motion Imagery Technologies, Best Practices, and Workflows for Intelligence, Surveillance, and Reconnaissance (ISR), and Situational Awareness*, edited by Donnie Self, Proceedings of SPIE Vol. 8740 (SPIE, Bellingham, WA, 2013) Article CID Number.

ISSN: 0277-786X

**Paper Numbering:** Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

# Contents

v *Conference Committee*

**SESSION 1 MOTION IMAGERY TECHNOLOGY I**

8740 02 **Overcoming ISR data challenges** [8740-1]
D. Bottom, NGA Springfield (United States)

8740 03 **Geospatial Intelligence (GEOINT) and Intelligence Surveillance and Reconnaissance (ISR) convergence** [8740-2]
M. G. Lee, Blue Canopy Group, LLC (United States)

8740 05 **Uses of motion imagery in activity-based intelligence** [8740-4]
T. D. Lash, SAIC (United States)

8740 06 **Low power multi-camera system and algorithms for automated threat detection** [8740-5]
D. J. Huber, D. Khosla, Y. Chen, D. J. Van Buer, K. Martin, HRL Labs. LLC (United States)

**SESSION 2 MOTION IMAGERY TECHNOLOGY II**

8740 08 **Transporting live video over high packet loss networks** [8740-7]
D. Werdin, Superior Access Solutions, Inc. (United States)

8740 09 **Intelligent video downlink solutions** [8740-8]
E. McCulley, Vislink, Inc. (United States)

8740 0A **Increased efficiency for beyond line-of-sight in airborne ISR operations** [8740-9]
S. Frayter, Newtec (United States); K. Willems, Newtec (Belgium)

8740 0B **A results-based process for evaluation of diverse visual analytics tools** [8740-11]
G. Rubin, D. H. Berger, System Planning Corp. (United States)

**SESSION 3 MOTION IMAGERY TECHNOLOGY III**

8740 0E **Methods and implications of geopositioning from full motion video** [8740-14]
J. J. Carpenter, P. V. Whalen, Integrity Applications Inc. (United States); M. J. Lenihan, National Geospatial-Intelligence Agency (United States); K. R. Rogers, H. J. Theiss, J. Dolloff, A. W. Braun, Integrity Applications Inc. (United States)

8740 0F **Smart systems, dumb data: impact on ISR operations** [8740-20]
G. S. Creech, Office of the Undersecretary of Defense, Intelligence Systems and Architectures (United States)

8740 0G **Foreground estimation in motion imagery using multi-frame change detection techniques** [8740-15]
A. J. Lingg, B. D. Rigling, Wright State Univ. (United States)

8740 0H **Gaze interaction in UAS video exploitation** [8740-16]
J. Hild, S. Brüstle, N. Heinze, E. Peinsipp-Byma, Fraunhofer Institute of Optronics, System Technologies and Image Exploitation (Germany)

**SESSION 4 MOTION IMAGERY TECHNOLOGY IV**

8740 0I **InnoVision's focus areas for motion imagery research and development** [8740-18]
K. E. Rice, National Geospatial-Intelligence Agency (United States)

8740 0K **Standards for efficient employment of wide-area motion imagery (WAMI) sensors** [8740-21]
L. S. Randall, Motion Imagery Standards Board (United States); P. F. Maenner, ITT Exelis (United States)

# Conference Committee

*Symposium Chair*

**Kenneth R. Israel**, Major General (USAF Retired) (United States)

*Symposium Cochair*

**David A. Whelan**, Boeing Defense, Space, and Security (United States)

*Conference Chair*

**Donnie Self**, National Geospatial-Intelligence Agency (United States)

*Conference Program Committee*

**Gary Nadler**, Consultant, Commercial Broadcast Industry (United States)
**Norman S. Stein**, TASC, Inc. (United States)
