PROCEEDINGS OF SPIE

2022 International Conference on Mechatronics Engineering and Artificial Intelligence (MEAI 2022)

Chuanjun Zhao
Editors

November 11-13, 2022
Changsha, China

Organized by
Capitol Technology University (United States)

Sponsored by
AEIC Academic Exchange Information Centre (China)

Published by
SPIE

Volume 12596

Proceedings of SPIE 0277-786X, V. 12596
SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

International Conference on Mechatronics Engineering and Artificial Intelligence (MEAI 2022),
edited by Chuanjun Zhao, Proc. of SPIE Vol. 12596, 1259601 · © 2023 SPIE
0277-786X · doi: 10.1117/12.2674483

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *2022 International Conference on Mechatronics Engineering and Artificial Intelligence (MEAI 2022)*, edited by Chuanjun Zhao, Proc. of SPIE 12596, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix. *Conference Committee*

ELECTROMECHANICAL DEVICE DESIGN AND FAULT MONITORING

12596 02 **Design and research of ship ballast water treatment device** [12596-82]

12596 03 **Fault diagnosis of reciprocating compressor based on multi-scale permutation entropy** [12596-27]

12596 04 **Lung cancer prediction and analysis by regression models** [12596-71]

12596 05 **Construction of power equipment fault feature model based on unified semantic expression** [12596-26]

12596 06 **Rehabilitating technologies and methods for large milling DC motor on site** [12596-5]

12596 07 **Design and implementation of welding training simulation platform based on virtual reality technology** [12596-22]

12596 08 **Design and optimization of injection needle for digital PCR detector** [12596-32]

12596 09 **Design and optimization of engine plastic cylinder head cover** [12596-18]

12596 0A **Fault diagnosis of vibrating screen exciter based on screen box attitude analysis** [12596-3]

12596 0B **Vibration analysis and optimization design of profile sawing and milling machine tool** [12596-65]

12596 0C **Optimization design of the wing structure based on variable density method and feasible direction method** [12596-17]

12596 0D **Bearing fault diagnosis based on prototypical network** [12596-31]

12596 0E **Application of dynamic ontology modeling techniques in power equipment fault prediction** [12596-36]

12596 0F **Simulation and experimental study of household ice maker** [12596-55]

12596 0G **Dimensional modeling of single pass welding in wire and arc additive manufacturing** [12596-19]

12596 0H **Structure optimization of thermoelectric parts based on welding process** [12596-90]

12596 0I **Research on the prediction method of yield in extraction process of trailing suction dredger** [12596-33]

12596 0J **Analysis on deck waves of general-purpose FPSO under extreme sea conditions** [12596-62]

12596 0K **Prediction of gas concentration in fully mechanized mining face based on LSTM model based on time series** [12596-28]

12596 0L **Multi-objective optimization design of single-stage electromagnetic needle selector with permanent magnet** [12596-64]

12596 0M **Geometrical analysis of maneuverability of the AGV forklift for the narrow aisle** [12596-52]

12596 0N **Research on model mapping method between MODBUS and IEC61850** [12596-7]

12596 0O **Design of root cutting device for Chinese cabbage and research on cutting simulation** [12596-15]

12596 0P **The combined supercritical CO_2-based binary mixture Brayton cycle/organic Rankine cycle: a thermodynamic parametric analysis** [12596-77]

12596 0Q **Research on the digital application of molten salt electrolysis based on distributed clusters** [12596-44]

12596 0R **Design of fractional-order global sliding mode controller for thermal-structure test based on neural network** [12596-37]

12596 0S **Mapping relationship between airworthiness and performance testing of military aircraft** [12596-42]

12596 0T **Prediction of jet noise in compressible turbulent boundary layer using TPS nozzle scale model** [12596-47]

12596 0U **Deepfake detection technique based on improved transformer model** [12596-6]

12596 0V **Research on agile production technology for inducing maintenance of space application facilities** [12596-107]

SENSOR NETWORK AND ELECTRONIC SYSTEM MODELLING

12596 0W **Prediction and analysis of lung cancer using machine learning models** [12596-70]

12596 0X **Employee turnover prediction using machine learning models** [12596-89]

12596 0Y **Colorectal cancer classification based on histology images: comparison between DNN and CNN** [12596-84]

12596 0Z **The comparison of CNN based networks on infiltrating ductal carcinoma images classification in the medical application field** [12596-83]

12596 10 **An extended event graph with probability for causal tracing and event prediction** [12596-112]

12596 11 **Prediction of survival probability of cancer using machine learning models** [12596-78]

12596 12 **Recent trend analysis of convolutional neural network-based breast cancer diagnosis** [12596-79]

12596 13 **Breast cancer prediction using machine learning models** [12596-74]

12596 14 **Research and application of intelligent traffic system on locomotive overhaul process** [12596-46]

12596 15 **Diabetes prediction and analysis using machine learning models** [12596-81]

12596 16 **An improved YOLOv5 method for small object detection in high resolution images** [12596-125]

12596 17 **The effect of input size on the accuracy of a convolutional neural network performing brain tumor detection** [12596-85]

12596 18 **YOLO lightweight contraband detection network using attention mechanism** [12596-50]

12596 19 **Research on shielding effectiveness of shielding vehicle based on wall boundary effect** [12596-113]

12596 1A **Research on suppression of pressure shock in shipping hydraulic system** [12596-40]

12596 1B **Research on OSNR monitoring technology based on deep neural network** [12596-49]

12596 1C **Study on optimization and adjustment of high sodium coal pulverization system for 660MW boiler** [12596-98]

12596 1D **Hydrodynamic analysis and design of mooring system for an aquaculture fish cage** [12596-56]

12596 1E **RAMS design of air conditioning ventilation system of Fuxing EMU** [12596-39]

12596 1F **Research on side pole impact test method of accelerating sled based on multi-point intrusion** [12596-48]

12596 1G **Layer counting method of hard target penetration fuze based on geomagnetic signal detection** [12596-10]

12596 1H **Mechanical characteristic condition monitoring system of high voltage circuit breaker** [12596-63]

12596 1I **Vibration isolation and noise reduction design of commercial vehicle cab mounting system based on blind source separation** [12596-122]

12596 1J **SAR image simulation of ocean surface based on electromagnetic scattering model** [12596-66]

12596 1K **Configuration method of power grid accident reserve for new power system** [12596-35]

12596 1L **Intelligent lighting system with single live wire based on ZigBee** [12596-99]

12596 1M **Failure analysis of wind turbine drive system** [12596-24]

12596 1N **Two stage model of capacity planning and operation optimization for integrated energy system** [12596-128]

12596 1O **U.S. public transportation ridership analysis and prediction based on COVID-19** [12596-72]

DEVICE SIMULATION AND ARTIFICIAL INTELLIGENCE CONTROL

12596 1P **Transmission line UAV inspection multi-link data congestion control method** [12596-25]

12596 1Q **Rotating U-shaped snap gripping point positioning method based on YOLOv5** [12596-104]

12596 1R **Research on lane detection algorithm for large curvature curve** [12596-57]

12596 1S **Skin cancer image classification optimization through transfer learning with Tensorflow and InceptionV3** [12596-86]

12596 1T **Self-supervised learning for textured surface anomaly detection and localization** [12596-126]

12596 1U **Research on low latency return method of transmission line UAV inspection data** [12596-29]

12596 1V **Research on polynomial key management algorithm for 5G cellular-connected drone sensor network** [12596-103]

12596 1W **Reinforcing feature distributions of hidden units of Boltzmann machine using correlations** [12596-80]

12596 1X **Lightweight pear detection algorithm based on improved YOLOv5** [12596-9]

12596 1Y **Connective-aware interaction attention for implicit discourse relation classification** [12596-51]

12596 1Z **The feature selection strategy of few-shot learning based on causal inference** [12596-88]

12596 20 **Machine learning prediction for low-alloy steel strength** [12596-73]

12596 21 **Analysis and control of solder joints failure of plug-in capacitors** [12596-119]

12596 22 **Task allocation and route planning in multi-UAV collaboration** [12596-2]

12596 23 **Performance analysis of sinusoidal weighted multi-carrier frequency scheme based on FDA** [12596-127]

12596 24 **Research on vehicle vibration threshold based on big data mining** [12596-4]

12596 25 **A ship object detection algorithm based on improved RetinaNet** [12596-53]

12596 26 **Application of UAV in intelligent patrol inspection of transmission line** [12596-54]

12596 27 **Logo detection and replacement method based on SIFT algorithm** [12596-45]

12596 28 **Research on key point defense strategies of anti-UAV** [12596-68]

12596 29 **Design of light warning device for escalator** [12596-21]

12596 2A **Failure analysis of drive chain of escalator handrail** [12596-11]

12596 2B **Comparison of algorithms based on lightweight frame problems** [12596-20]

12596 2C **Study on detection probability of radar under active and passive jamming** [12596-75]

12596 2D **Ion thrusters to Saturn** [12596-87]

12596 2E **Chinese font generation based on deep learning** [12596-41]

12596 2F **Weakly supervised text classification method based on transformer** [12596-69]

12596 2G **A parallel processing method for long-range contextual semantic information to sentiment analysis based on aspect** [12596-115]

12596 2H **Research on scene text detection algorithm based on modified YOLOv5** [12596-100]

Conference Committee

Conference Chair

Chuanjun Zhao, Shanxi University of Finance and Economics (China)

Publication Chair

Hilal Imane, Emory University (Morocco)

Technical Program Committee Chair

Mir Sajjad Hussain Talpur, Emory University (Pakistan)

Local Committees

Xuefang Nie, Harbin Institute of Technology (China)
Shahzad Ashraf, Hohai University Changzhou Campus (China)
Shuming Yang, Xi'an Jiaotong University (China)

Technical Program Committees

Johan Debayle, Ecole Nationale Supérieure des Mines (ENSM-SE) (France)
Salija P, Government Engineering College (India)
Karan Aggarwal, Bachelor of Commerce (India)
Mohammed Teeti, East China University of Technology (ECUT) School of Information Engineering (China)
Vineet Dahiya, K. R. Mangalam University (India)
Issa Atoum, The World Islamic Sciences and Education (W.I.S.E) (Jordan)
Vijaya Kishore, G. Pullaiah College of Engineering and Technology (India)
Fathollah Bistouni, Islamic Azad University (Iran)
Marjan Goodarzi, King Abdulaziz University (KAU) (USA)
Vinoth Kumar, SSM Institute of Engineering and Technology (India)
Marxim Rahula Bharathi Boopathi Rajan, Indian Institute of Technology Kharagpur (India)
Mohammad Reza Safaei, King Abdulaziz University (KAU) (USA)
Srimanti Roychoudhury, University of Calcutta (India)
Hakim Naceur, Institut National des Sciences Appliquées (France)
Agusmian Partogi Ompusunggu, Flanders Make vzw (Netherlands)
Kishore Kumar Pedapenk, Saveetha Engineering College (India)
