The International Society
for Optical Engineering

Proceedings of SPIE—The International Society for Optical Engineering, 9780819465412, v. 6428

SPIE is an international technical society dedicated to advancing engineering and scientific applications of optical, photonic, imaging, electronic, and optoelectronic technologies.

Mechanisms for Low-Light Therapy II, edited by Michael R. Hamblin, Ronald W. Waynant, Juanita Anders,
Proc. of SPIE Vol. 6428, 642801, (2007) · 1605-7422/07/\$18 · doi: 10.1117/12.730340

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Contents

vii *Conference Committee*

SESSION 1 **REVIEWS AND DOSIMETRY**

- 642802 **Cellular chromophores and signaling in low level light therapy** [6428-01]
M. R. Hamblin, Wellman Ctr. for Photomedicine, Massachusetts General Hospital (USA),
Harvard Medical School (USA), and Harvard-MIT Division of Health Sciences and
Technology (USA); T. N. Demidova-Rice, Wellman Ctr. for Photomedicine, Massachusetts
General Hospital (USA) and Tufts Univ. School of Medicine (USA)
- 642803 **Light dosimetry for low-level laser therapy: accounting for differences in tissue and depth**
[6428-02]
R. Weersink, Univ. Health Network (Canada); R. White, Theralase Inc. (Canada); L. Lilge,
Ontario Cancer Institute (Canada)
- 642805 **In vitro effect of phototherapy with low intensity laser on HSV-1 and epithelial cells**
[6428-04]
F. P. Eduardo, D. U. Mehnert, T. A. Monezi, Univ. of São Paulo (Brazil); D. M. Zzell, Instituto
de Pesquisas Energéticas e Nucleares (Brazil); M. M. Schubert, Univ. of Washington (USA);
C. P. Eduardo, M. M. Marques, Univ. of São Paulo (Brazil)
- 642806 **Advancing to controlled and individualized dosimetry for monochromatic light therapy**
[6428-05]
V. Grimblatov, Columbia Univ. Medical Ctr. (USA); A. Goldfarb, Metrplus Health Plan (USA);
M. Shneyder, Columbia Univ. Medical Ctr. (USA)

Pagination: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication.

SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

SESSION 2 IN VITRO STUDIES

- 642808 **How phototherapy affects angiogenesis** [6428-07]
M. Dyson, King's College London (United Kingdom)
- 642809 **Noninvasive diode laser activation of transient receptor potential proteins and nociceptors** [6428-08]
N. Jiang, B. Y. Cooper, Univ. of Florida (USA); M. I. Nemenov, Stanford Univ. (USA) and LasMed LLC (USA)
- 64280A **Acupuncture: a first approach on pain relief using a 617nm LED device** [6428-23]
J. M. Costa, CMC Ctr. (Spain); M. I. Corral-Baqués, A. Amat, SORISA Medical Research Dept. (Spain)
- 64280B **Increased expression of mitochondrial benzodiazepine receptors following low-level light treatment facilitates enhanced protoporphyrin IX production in glioma-derived cells *in vitro*** [6428-10]
S. K. Bisland, N. S. Hassanali, C. Johnson, B. C. Wilson, Univ. of Toronto, Ontario Cancer Institute (Canada)
- 64280D **Analysis of biomodulative effects of low intensity laser on human skin fibroblast cells using fiber-optic nano-probes** [6428-12]
A. Dutta, K. Mitra, M. S. Grace, Florida Institute of Technology (USA); R. W. Waynant, D. B. Tata, E. Gorman, U.S. Food and Drug Administration (USA); J. Anders, Uniformed Services Univ. of the Health Sciences (USA)

SESSION 3 ANIMAL EXPERIMENTS

- 64280E **Near-IR induced suppression of metabolic activity in aggressive cancers** [6428-13]
D. B. Tata, U.S. Food and Drug Administration (USA); M. Fahey, K. Mitra, Florida Institute of Technology (USA); J. Anders, Uniformed Services Univ. of the Health Sciences (USA); R. W. Waynant, U.S. Food and Drug Administration (USA)
- 64280F **Low-level light therapy for Zymosan induced arthritis in rats** [6428-14]
A. P. Castano, T. Dai, Wellman Ctr. for Photomedicine, Massachusetts General Hospital (USA) and Harvard Medical School (USA); T. N. Demidova-Rice, Wellman Ctr. for Photomedicine, Massachusetts General Hospital (USA) and Tufts Univ. School of Medicine (USA); E. V. Salomatina, Wellman Ctr. for Photomedicine, Massachusetts General Hospital (USA); A. N. Yaroslavsky, Wellman Ctr. for Photomedicine, Massachusetts General Hospital (USA) and Harvard Medical School (USA); I. Yaroslavsky, R. Cohen, W. A. Apruzzese, M. H. Smotrich, Palomar Medical Technologies, Inc. (USA); M. R. Hamblin, Wellman Ctr. for Photomedicine, Massachusetts General Hospital (USA), Harvard Medical School (USA), and Harvard-MIT Division of Health Sciences and Technology (USA)
- 64280G **Effect of low intensity laser therapy in an experimental model of cranio-encephalic trauma in rats** [6428-15]
D. T. Meneguzzo, C. Y. Okada, School of Dentistry, Univ. of Sao Paulo (Brazil); M. K. Koike, B. A. Silva, Jr., School of Medicine, Univ. of Sao Paulo (Brazil); M. S. Moreira, Sao Paulo City Hospital (Brazil); C. de Paula Eduardo, M. Martins Marques, School of Dentistry, Univ. of Sao Paulo (Brazil)

SESSION 4 CLINICAL STUDIES

- 64280K **Laser therapy in the management of dental and oro-facial trauma** [6428-19]
A. A. Darbar, Smile Creations Dental Practice (United Kingdom)
- 64280M **Studies on the mechanism for low-light effects utilizing color filters in the human ultra-weak photon emission field** [6428-21]
R. Van Wijk, International Institute of Biophysics (Germany) and Utrecht Univ. (Netherlands);
E. P. A. Van Wijk, International Institute of Biophysics (Germany)
- 64280O **Development of electric punctural diagnostics methods for treatment-and-diagnostic complexes** [6428-09]
E. P. Lyapina, Saratov State Medical Univ. (Russia); I. A. Chesnokov, N. A. Bushuev, Federal State Unitary Enterprise SPE Almaz (Russia); A. A. Shuldjakov, Saratov State Medical Univ. (Russia); Ya. E. Anisimov, Federal State Unitary Enterprise SPE Almaz (Russia);
A. V. Kornaukhov, S. I. Anisimov, N.I. Lobachevsky Nizhni Novgorod State Univ. (Russia);
Yu. Yu. Eliseev, Saratov State Medical Univ. (Russia); E. L. Surmenko, Saratov State Technical Univ. (Russia)

Author Index

Conference Committee

Symposium Chairs

James G. Fujimoto, Massachusetts Institute of Technology (USA)
R. Rox Anderson, Wellman Center for Photomedicine (USA),
Massachusetts General Hospital (USA), and Harvard School of Medicine
(USA)

Program Track Chairs

Reza Malek, Mayo Clinic (USA)
Keith Black, Cedars-Sinai Medical Center (USA)

Conference Chairs

Michael R. Hamblin, Wellman Center for Photomedicine (USA),
Massachusetts General Hospital (USA), and Harvard School of Medicine
(USA)
Ronald W. Waynant, U.S. Food and Drug Administration (USA)
Juanita Anders, Uniformed Services University of the Health Sciences (USA)

Program Committee

Stuart K. Bisland, Princess Margaret Hospital (Canada) and Ontario
Cancer Institute, University of Toronto (Canada)
James D. Carroll, THOR International, Ltd. (United Kingdom)
Mary Dyson, King's College London (United Kingdom)
Valentin M. Grimblatov, Photonics Healthcare Laboratory (USA) and
Columbia University Medical Center (USA)

Session Chairs

- 1 Reviews and Dosimetry
 Michael R. Hamblin, Wellman Center for Photomedicine (USA),
 Massachusetts General Hospital (USA), and Harvard School of Medicine
 (USA)
- 2 In Vitro Studies
 Juanita Anders, Uniformed Services University of the Health Sciences (USA)
- 3 Animal Experiments
 Ronald W. Waynant, U.S. Food and Drug Administration (USA)
- 4 Clinical Studies
 Stuart K. Bisland, Princess Margaret Hospital (Canada) and Ontario
 Cancer Institute, University of Toronto (Canada)
