

PROGRESS IN BIOMEDICAL OPTICS AND IMAGING

Vol. 10, No. 18

Biophotonics and Immune Responses IV

Wei R. Chen

Editor

25–26 January 2009

San Jose, California, United States

Sponsored and Published by

SPIE

Volume 7178

Proceedings of SPIE, 1605-7422, v. 7178

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Biophotonics and Immune Responses IV*, edited by Wei R. Chen, Proceedings of SPIE Vol. 7178 (SPIE, Bellingham, WA, 2009) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 1605-7422/09/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

The logo for SPIE Digital Library features the word "SPIE" in a bold, sans-serif font above the words "Digital Library" in a similar font. To the right of the text is a stylized graphic consisting of three vertical bars of varying heights, resembling a barcode or a digital signal.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

v *Conference Committee*

PDT-INDUCED IMMUNE RESPONSES

- 7178 03 **Stimulation of dendritic cells enhances immune response after photodynamic therapy (Invited Paper)** [7178-02]
P. Mroz, A. P. Castano, Massachusetts General Hospital (United States) and Harvard Medical School (United States); M. R. Hamblin, Massachusetts General Hospital (United States), Harvard Medical School (United States), and Harvard-MIT Division of Health Sciences and Technology (United States)

PHOTOIMMUNOTHERAPY I

- 7178 05 **How photons modulate wound healing via the immune system (Invited Paper)** [7178-04]
M. Dyson, King's College London (United Kingdom)

PHOTOIMMUNOTHERAPY II

- 7178 0A **Effects of immunostimulants in phototherapy for cancer treatment** [7178-09]
W. R. Chen, A. Sarker, Univ. of Central Oklahoma (United States); H. Liu, Univ. of Oklahoma (United States); M. F. Naylor, Univ. of Oklahoma Health Science Ctr. at Tulsa (United States); R. E. Nordquist, Wound Healing of Oklahoma, Inc. (United States)
- 7178 0B **Possible role of laser phototherapy in laser immunotherapy** [7178-10]
T. Hode, Irradia USA (United States); L. Hode, Swedish Laser-Medical Society (Sweden)
- 7178 0C **Preliminary study of cytotoxic effects of photodynamic therapy and immunotherapy on human pancreatic cancer cells** [7178-11]
L. Wang, Changhai Hospital, The 2nd Military Medical Univ. (China) and Univ. of Colorado at Denver (United States); B. Liu, Y. K. Chen, Univ. of Colorado at Denver (United States); Z. Li, Changhai Hospital, The 2nd Military Medical Univ. (China); F. W. Hetzel, Z. Huang, Univ. of Colorado at Denver (United States)
- 7178 0D **HSP70 inhibits Bax translocation during Photofrin-PDT apoptosis** [7178-12]
F. Zhou, South China Normal Univ. (China); W. R. Chen, South China Normal Univ. (China) and Univ. of Central Oklahoma (United States); S. Song, South China Normal Univ. (China)

DETECTIONS OF PHOTOIMMUNE ACTIVITIES

- 7178 0E **Studying tumor metastasis by in vivo imaging and flow cytometer (Invited Paper)** [7178-13]
X. Wei, J. Guo, G. Liu, Y. Li, Y. Chen, L. Zhang, Y. Tan, Fudan Univ. (China); T. Chen, Huashan Hospital, Fudan Univ. (China); Z. Gu, Xinhua Hospital, Shanghai Jiao Tong Univ. (China); C. Wang, Univ. of Shanghai for Science and Technology (China)

- 7178 OF **In vivo optical imaging to visualize photodynamic therapy-induced immune responses (Invited Paper)** [7178-14]
S. Mitra, T. H. Foster, Univ. of Rochester (United States)

POSTER SESSION

- 7178 OI **Emission spectral analysis of caspase-3 activation during artesunate (ART)-induced apoptosis of human lung adenocarcinoma cell** [7178-18]
W. Pan, T. Chen, South China Normal Univ. (China); J. Qu, Shenzhen Univ. (China)
- 7178 OJ **Bax translocation into mitochondria during dihydroartemisinin(DHA)-induced apoptosis in human lung adenocarcinoma cells** [7178-19]
Y. Lu, T. Chen, South China Normal Univ. (China); J. Qu, Shenzhen Univ. (China)
- 7178 OK **Reactive oxygen species (ROS) is not a promotor of taxol-induced cytoplasmic vacuolization** [7178-20]
Q. Sun, T. Chen, South China Normal Univ. (China)
- 7178 OL **Mitochondrial injury caused by reactive oxygen species generation under high fluence low-power laser irradiation treatment** [7178-21]
S. Wu, L. Huang, X. Sun, J. Chu, South China Normal Univ. (China)
- 7178 OM **Akt regulates proliferation induced by low-power laser irradiation in COS-7 cells** [7178-22]
L. Zhang, X. Gao, South China Normal Univ. (China)
- 7178 ON **Involvement of caspase-dependent and -independent apoptotic pathways in cisplatin-induced apoptosis** [7178-23]
L. Liu, Y. Zhang, X. Wang, South China Normal Univ. (China)
- 7178 OO **Effect of PDT-treated apoptotic cells on macrophages** [7178-24]
S. Song, D. Xing, F. Zhou, South China Normal Univ. (China); W. R. Chen, South China Normal Univ. (China) and Univ. of Central Oklahoma (United States)
- 7178 OP **Real-time optical imaging of the interaction of epidermal growth factor and its receptor in living cells** [7178-25]
Q. Lin, L. Wang, S. Zeng, Z. Zhang, Huazhong Univ. of Science and Technology (China); G. Zheng, Ontario Cancer Institute (Canada) and Univ. of Toronto (Canada)

Author Index

Conference Committee

Symposium Chairs

James G. Fujimoto, Massachusetts Institute of Technology
(United States)

R. Rox Anderson, Wellman Center for Photomedicine, Massachusetts
General Hospital (United States) and Harvard School of Medicine
(United States)

Program Track Chairs

Steven L. Jacques, Oregon Health and Science University
(United States)

William P. Roach, Air Force Research Laboratory (United States)

Conference Chair

Wei R. Chen, University of Central Oklahoma (United States)

Program Committee

Samuel Achilefu, Washington University in St. Louis (United States)

Gianfranco L. Cantì, Università degli Studi di Milano (Italy)

Xing Da, South China Normal University (China)

Sandra O. Gollnick, Roswell Park Cancer Institute (United States)

Michael R. Hamblin, Massachusetts General Hospital (United States)

Zheng Huang, University of Colorado at Denver (United States)

Mladen Korbelik, British Columbia Cancer Agency (Canada)

Mark F. Naylor, University of Oklahoma (United States)

Karl-Goran Tranberg, Lunds Universitet (Sweden)

Xunbin Wei, Fudan University (China)

Vladimir P. Zharov, University of Arkansas for Medical Sciences
(United States)

Session Chairs

- 1 PDT-Induced Immune Responses
Michael R. Hamblin, Massachusetts General Hospital (United States)
Mladen Korbelik, British Columbia Cancer Agency (Canada)
- 2 Photoimmunotherapy I
Mark F. Naylor, University of Oklahoma (United States)
Sandra O. Gollnick, Roswell Park Cancer Institute (United States)

- 3 Photoimmunotherapy II
Zheng Huang, University of Colorado at Denver (United States)
Wei R. Chen, University of Central Oklahoma (United States)
- 4 Detections of Photoimmune Activities
Xunbin Wei, Fudan University (China)
Vladimir P. Zharov, University of Arkansas for Medical Sciences
(United States)
